

**Senate Assessment and Taxation Committee
in Support of SB33
Written-Only Testimony
Ryan Swenson**

January 20, 2025

To Whom It May Concern:

I am writing this letter to offer support for removing the requirement for paperwork for the custom meat processing exemption of sales tax. The amount of paperwork that it has generated is cumbersome. Customers and employees have difficulties explaining the requirement and understanding it. Also, it creates a significant burden on the business for maintaining the records for 3 years. There is also difficulty with over the phone payments. The elimination of this requirement would be terrific.

Sincerely,

Ryan Swenson
