

Bill 283

From- Mary Beth Mooney

I am 70 yrs old and vote in every election I can

I OPPOSE this bill on my behalf and fellow workers who work for Benchmark LLC and Streamline Construction:

- 1- I work for a construction company (Finance/Accounting) that employs over 80 people in office and on sites which directly affect them and right away create layoffs.
- 2- in my position I know Kansas would lose over 100 million plus in Revenue. That is just our small Construction company. I'm not sure how many construction companies in Kansas do Low-Income/Senior Housing.
- 3- Case in point ... I am presently looking for Low Income Housing in KS close to a 70 yr old friend from high school who can only afford payments on a motor home. Waiting lists everywhere.
- 3- Case 2 in point ... another very close VA friend has a VA brother with chronic problems. He is living in VA housing in Kansas City MO area and has been beaten up badly. We are trying to move him into much nicer low income housing in Kansas. No availability
- 4- Our low income housing is extremely nice and very affordable. I am retiring soon and would like to have the option to move in one. Over 70 population growing rapidly. Lots of Low income Senior apartments are in demand. Please remember our aging population.
- 5- Please don't confuse low income communities with government housing and please don't STOP low incoming house in Kansas
