SB 38

Proponent

Written Only

Chairman Thompson and the members of the committee,

I am submitting my proponent testimony for Senate Bill 38.

I support this bill for the simple fact that we as Kansans should not send our men and women to war if the United States Congress has not declared war. It is our jobs to help these men and women, so they are not used and abused by our government by entering senseless wars around the globe if there has not been a declaration. I support Senate Bill 38.

Best Regards
