SB254

Proponent

Written Only

Chairman Thompson and Members of the committee,

I am submitting my proponent testimony for SB254. I believe all taxpayer funded benefits or assistance should be only for legal residents of the state of Kansas and the United States. Assistance needs to have guidelines in place to ensure only the legal residents are receiving benefits. Benefits of the state should go to people who have a rightful claim and not to everyone who has their hands out. Society has rule of law for a reason and a breakdown in following the rule of law has consequences. In this case, taxpayers don't need to unnecessarily spend money on people who are not eligible. Those folks need to become eligible, then they have every right to claim those benefits. I urge you to support SB254.

Respectfully,
