Bill HB 2062—Written Opposition Testimony

Molly Keppler
Leawood, KS
mollyewalsh@gmail.com

Dear Chair and committee members,

I am writing to oppose HB 2062. Although this bill purports, on its face, to be aimed at helping women and children, it is nothing more than a thinly veiled attempt to override the valid and legitimate vote of the people of Kansas to enshrine reproductive rights in this state. Creating a fetal personhood law puts fetal "rights" above the health and rights of the pregnant woman. This bill could also impact the use of IVF, thereby preventing women who desperately want children from being able to have them. Please vote no on HB 2062 and its far reaching consequences.

Regards,
Molly Keppler
