Re: House Bill 2134 Proponent Testimony

Senator Warren and members of the Judiciary Committee,

On behalf of the Kansas Register of Deeds Association, I would like to thank you for allowing us to comment on House Bill 2134.

The Kansas Register of Deeds Association is supportive of HB 2134 in the form it passed the House with the amendment proposed by Kansas Policy Institute and the League of Kansas Municipalities that allows our members to recoup their actual costs in response to Open Records requests.

Through further discussions with KPI regarding HB 2134 as amended and SB 70, we were able to reach an understanding and we have no objection to their adding the KOMA language in SB 70 to HB 2134, as it came from the House.

Thank you for considering our comments!
