**MEMORANDUM**

To: Members of the Senate Committee on Transportation  
From: Office of Revisor of Statutes  
Date: January 28, 2025  
Subject: Senate Bill No. 9 (As Introduced)

**Summary**

Senate Bill No. 9 extends from 30 to 90 days for when a land surveyor is required to file a reference report for each corner or accessory with the Secretary of the State Historical Society and the county surveyor for the county or counties in which the survey corner exists for a survey of an United States public land survey. In the event no county surveyor exists, such survey may also be filed in a county office designed by the county commission.

Additional deadlines to file reports are extended from 30 to 90 days in the event that an United States public land survey corner or any related accessory is likely to be altered, removed, damaged or destroyed. A land surveyor shall also file a restoration report within such extended time period.
