RE: Senate Bill (SB) 18 Proponent – Written Testimony

Thank you, Chairman Petersen and Committee members, for the opportunity to support SB 18, Hunter Nation License Plate bill. I am not here in my position as a Commissioner on the Kansas Department of Wildlife & Parks, but as President of Hunter Nation. Proudly, I am a lifelong Kansan and a lifelong hunter. I founded Hunter Nation right here in Kansas to be the leading not-for-profit conservation organization that protects all traditional American values including God, family, country, the Constitution, and the hunting lifestyle. Hunter Nation has had a tremendous impact across the country in promoting and protecting hunting, conservation, and access to habitat at the state and federal level.

With Hunter Nation being based in Kansas, it would be especially appropriate to support this organization with a Kansas license plate.

I support SB 18 and ask this Committee to recommend it favorably for passage.

Keith Mark

President

Hunter Nation
