The Honorable Mike Thompson, Chairperson
Senate Committee on Federal and State Affairs
300 SW 10th Avenue, Room 144-S
Topeka, Kansas 66612

Dear Senator Thompson:

SUBJECT: Fiscal Note for SB 507 by Senate Committee on Federal and State Affairs

In accordance with KSA 75-3715a, the following fiscal note concerning SB 507 is respectfully submitted to your committee.

SB 507 would prohibit the enforcement of federal immigration laws within 400 feet of polling places and locations designated for canvassing, auditing, and recounting of ballots. Violations would be class A misdemeanor.

The Office of the Judicial Administration indicates the passage of SB 507 could increase the number of cases filed in district courts because it creates a new crime. This would increase time spent by district court judicial and nonjudicial personnel in processing, researching, and hearing cases. Since the crime carries a class A, misdemeanor penalty, there could also be additional supervision of offenders by court services officers. Enactment of the bill could increase the collection of docket fees, fines, and supervision fees that would be deposited into the State General Fund. A portion of the supervision fees would also be deposited into the agency's Correctional Supervision Fund. The agency indicates that it is unable to estimate a precise fiscal effect.

The Secretary of State and the Office of the Attorney General both indicate SB 507 would not have a fiscal effect. The Attorney General also states that the bill is at a high risk of being the subject of litigation if it becomes law; however, the agency is unable to estimate the cost of litigation. Any fiscal effect associated with SB 507 is not reflected in *The FY 2027 Governor's Budget Report*.

The Kansas Association of Counties indicates SB 507 could increase costs to the counties if there is a surge in federal enforcement of immigration laws; however, the Association is unable to estimate a fiscal effect. The League of Kansas Municipalities states the bill would not have a fiscal effect on cities.

Sincerely,
