### **Background**

The bill was introduced by the Senate Committee on Federal and State Affairs at the request of Senator Tyson.

### ***Senate Committee on Agriculture and Natural Resources***

In the Senate Committee hearing, the Kansas Attorney General and a Commission member provided **proponent** testimony, advocating that an increased amount of decision-making authority regarding rules and regulations be given to the Commission to ensure informed decision-making and modify the Secretary's rules and regulations authority.

Written-only proponent testimony was provided by a Commission member and a representative of the Kansas Outfitters and Landowners Association.

Neutral testimony was provided by a representative of KDWP, who expressed concerns over the removal of longstanding practices and procedure conducted by the

department and disruptions that may occur should commissioners be able to propose their own regulations.

**Opponent** testimony was provided by a former Commission member and a representative of The Nature Conservancy, who expressed a desire to maintain the current structure that allows for checks and balances on the Secretary's rules and regulations.

The Senate Committee amended the bill to:

- Adjust the appointment, term expiration, number of appointees from the same Region, and removal of Commission members;
- Prohibit appointment to the Commission if a person has had a certain license or employment within five years prior to appointment;
- Allow members of the Commission to directly submit potential rules and regulations, and by majority vote, direct the Secretary to draft a report on or develop any proposed rules and regulations; and
- Make technical amendments.

### **Fiscal Information**

According to the fiscal note prepared by the Division of the Budget on the bill, KDWP would require \$85,000 from its fee funds to hire 1.00 Legal Assistant position starting in FY 2026. Any fiscal effect associated with enactment of the bill is not reflected in *The FY 2026 Governor's Budget Report*.
