House Federal and State Affairs Committee March 12, 2012
HB 2690
Duane Goossen Vice President for Fiscal & Health Policy Kansas Health Institute

Information for policymakers. Health for Kansans.

The Kansas Health Institute is an independent, nonprofit health policy and research organization based in Topeka, Kansas. Established in 1995 with a multi-year grant from the Kansas I

conducts research and policy analysis on issues that affect the health ϵ

House Federal & State Affairs

-12-12

Attachment # 3

Members of the House Federal and State Affairs Committee:

Thank you for the opportunity to offer neutral testimony on HB 2690.

The Kansas Health Institute has begun to collect tax data and alcoholic beverage license data to help assess the impact of the Kansas Indoor Clean Air Act. Our initial data collection is shown on a spreadsheet attached to this testimony. The spreadsheet shows a history of statewide liquor excise tax receipts and sales tax receipts for restaurants and other food service establishments, including one year of receipts after the Indoor Clean Air Act was implemented. The spreadsheet also shows a history of the number of alcoholic beverage licenses issued for various kinds of businesses.

The data collected so far indicates that the Indoor Clean Air Act has not had an overall negative effect on restaurant or drinking establishment sales or on the number of alcoholic beverage licenses issued.

KHI will continue to collect and analyze data related to the Indoor Clean Air Act.

Also attached is previous testimony from KHI on statewide smoking ban issues and a KHI study on the economic impact of the Lawrence smoke-free ordinance.

^{*} Kansas currently imposes a tax of 79 cents per pack on cigarettes. The tax was raised from 24 cents to 70 cents on July 1, 2002, and from 70 cents to 79 cents on January 1, 2003.

The Kansas Indoor Clean Air Act took effect at the beginning of FY

^{**}Liquor excise tax is charged at the rate of 10 % on gross receipts from the sale of liquor by clubs, cateriers, and drinking establishments. The proceeds of the tax are distributed 25 % to the State General Fund, 5 % to the Community Alcoholism and Intoxication Programs Fund, and 70 % to Local Governments.

^{***}The state sales tax rate was raised from 4.9 % to 5.3% on July 1, 2002 and from 5.3 % to 6.3 % on July 1, 2010. The July 1, 2010 increase corresponds with the effective date of the statewide smoking ban. If the tax increase had not been imposed, FY 2011 collections for Full Service Restaurant tax collections would have been approximately \$68,000,000. Collections for Limited Service Eating Places would have been approximately \$75,500,000. Collections for Special Food Services would have been approximately \$2,700,000. Collections for Drinking Places would have been approximately \$2,700,000. Collections for Drinking Places would have been approximately \$24,000,000.
