Testimony on **SB 390**

House Federal and State Affairs Committee

Chairman Brunk and Members of the Committee

We support SB 390.

We believe that **SB 390 has elements that are beneficial and we support those.** They were the original requests from Dept. of Agriculture and include sale of Farm Winery, unopened containers at events and allowing consumption on Farm Winery premises of product made and sold by the Farm Winery. These are changes that the entire industry supports as well as the Dept. of Agriculture and would assist not only the industry but the consumers as well.

The issue of the connection to KS fruit and how that is essential to the promotion and growth of Acres of KS grapes I will address more fully in my SB 379 testimony.

We worked with Sen Schmidt who we understand originally introduced this bill and the Senate to amend this bill into a measure that the entire Industry, Dept. of Ag. And the City of De Soto support.

Now this measure continues to elevate and promote Kansas as a wonderful wine state. We ask you to pass this bill as written.

Thank you for your time, service and consideration,

Philip Bradley
