

## TESTIMONY IN SUPPORT OF HB 2176

To: House Committee on Taxation  
From: Doug Robinson, Finance Director  
Date: January 26, 2012

Thank you for the opportunity to present written testimony regarding HB2176. The City of Lenexa understands this bill was introduced to allow local governments one additional month to certify annual budget information to the County Clerk. The City of Lenexa supports this legislative item.

HB2176 will provide additional time to prepare revenue and expenditure estimates for the annual budget. This additional month will allow local governments to be more accurate in estimating revenues and expenditures for the following fiscal year without impacting the levying and collection of property tax revenues.
