

Association Of Ethanol Processors

Written Statement in Support of HB 2560
House Taxation Committee
Richard Carlson, Chair
February 8, 2012

Thank you Chair and members of the Committee, my name is Ron Seeber; I am the Senior Vice President of the Kansas Association of Ethanol Processors. KAEP represents the ethanol manufacturers and affiliated industries in our state. On behalf of the industry I am providing this testimony in support of HB 2560.

KAEP believes that by simplifying the Tax code, Kansas will have a more hospitable tax environment for investment. Ethanol plants are a staple for economic development in rural Kansas and by making the needed changes in HB 2560, Kansas will accomplish just that. Taxes at the on all levels are extremely cumbersome and complicated. A fairer, structured system will attract out of state companies to come to Kansas and help those in Kansas to prosper and grow.

We support the Governor and his bold effort to change business as usual. HB 2560 is a dynamic vision for our state and, if implemented, will move Kansas forward. KAEP believes this is a good start to making our tax system more user friendly. We urge the committee to consider approving this bill to allow businesses expand and flourish.
