WE ARE IN DEEP ECONOMIC TROUBLE (Kansas & America)

\$16 trillion National Debt

\$100 trillion Unfunded Mandates (SSC & Medicare)

Kansas 47<sup>th</sup> in “Best States To Bring Your New Business”

CAN'T CUT SPENDING OR RAISE TAXES ENOUGH TO EVEN DENT THIS KIND OF DEBT

WE ARE TAXING MY UNBORN 1ST GRANDCHILD

THE ONLY WAY OUT OF THIS DEBT IS TO GROW THE ECONOMY

Best example: Ronald Reagan's 25% across the board tax cuts which resulted in the greatest period of economic growth in American history.

TAXING INCOME vs. TAXING CONSUMPTION

Paraphrasing Louis Woodhill, “Taking dollars out of the economy as they are earned (income tax), leaves less dollars to churn through the economy and grow it”.

On its face it makes more sense to tax at the end of the economic cycle (consumption tax) when the economy is larger and there is more to tax.

BESIDES THAT

TAXING INCOME IS EVIL

1913 Was a Bad Year for America

- 1) Election of President Woodrow Wilson who arguably started the Progressive Movement away from the Constitution
- 2) The Federal Reserve was started
- 3) The 16<sup>th</sup> Amendment became part of our Constitution

The concept of progressively taxing income originated with Karl Marx as a means of controlling “the people”.

In fact it is #2 in the “Communist Manifesto” (Google it)

FEDERAL AND STATE INCOME TAXES ARE EVIL BECAUSE

- 1) they punish success and modify economic behavior slowing growth of the economy
  - 2) They allow “temporary politicians” to redistribute income from those who earn it to those who don’t for VOTES.
  - 3) When high enough; corporate income taxes force industry out of America and Kansas.
  - 4) They create a barrier between elected officials and “We The People” (Kevin Yoder Conversation)
- .....

YOU ARE ALL “TEMPORARY POLITICIANS” BUT THE ACTIONS YOU TAKE OFTEN HAVE TO BE LIVED WITH LONG AFTER YOU ARE FORGOTTEN

Reagan’s 25% cuts across the board were fantastic but what good are they to us now?

Rick Perry’s Flat Tax, Herman Cain’s 9-9-9 or Rick Santorum’s 0% Corporate Tax on Manufacturing would all be better than what we have now but how long would they last?

Probably; until the next set of temporary politicians are elected because they are all still.....INCOME TAXES.

LET’S MAKE SOME REAL CHANGE IN KANSAS AND AMERICA

THAT WILL KEEP THIS DEBT BURDEN FROM PASSING ON TO OUR GRANDCHILDREN

PLEASE PASS HB-2763 so everyone can move their business and residence to Kansas and our economy can soar.

Then LOBBY TO ELIMINATE THE 16<sup>TH</sup> AMENDMENT

BOTH WILL LEAD TO JOBS-JOBS-JOBS
