My name is Emmanuel (Mac) Dumler and I am a resident homeowner and taxpayer from Missouri. I am also a property owner and taxpayer from Kansas.

(A) I have supporter legislature of HB25 and SB 25 to replace the National income tax of this country. I advocate the repeal of the State Tax in both Kansas and Missouri.

(B) I have for years followed in my father, grandfather and great-grand fathers footsteps feelings that we need as residents of the State of Kansas and citizens of America make sure that we keep the tax system that started out as an additional way to generate revenue be in control of 'we the people'. We need to remind ourselves that the tax system be fair and equal for all.

(C) As Kansas taxpayers we need to eliminate the State Tax on individuals and corporations. We can be more competitive with other states and will help the state attract new residents and other corporations that will relocate to Kansas.
