Department of Health and Environment

Notice of Hearing on Proposed
Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Environmental Field Services, will conduct a public hearing at 2 p.m. Thursday, May 26, in Room 530 of the Curtis State Office Building, 1000 S.W. Jackson, Topeka, to consider the adoption of K.A.R. 28-16-28g, proposed amended regulation regarding Kansas Surface Water Quality Standards and adopting the Kansas Surface Water Register. The following is a summary of the proposed amendments and estimated economic impact:

Summary of Regulation:

K.A.R. 28-16-28g is the classification and use designation section of the Kansas Surface Water Quality Standards. Designated uses of surface waters are listed in the Kansas Surface Water Register which is adopted by reference in K.A.R. 28-16-28g. The register identifies major classified streams, lakes and wetlands and the uses that are existing or attainable. In the period of January 1, 2007, through July 30, 2008, 971 stream segments and 36 lakes were evaluated by a designated use attainability analysis (UAA) to determine the appropriate use designations. These proposed revisions identify the designated use changes for 709 stream segments and 36 lakes as a result of UAA findings. Three stream segments are proposed for deletion from the Kansas Surface Water Register (removed from classification); 16 stream segments are proposed for secondary contact recreation; 20 stream segments are proposed for primary contact recreation; and 703 stream segments added or changed designated use assignments for aquatic life support use, food procurement, domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge. Two lakes are proposed for deletion and 30 lakes

Proposed

are proposed for domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge.

Economic Impact:

There are no anticipated costs of compliance resulting from these changes in designated use designations.

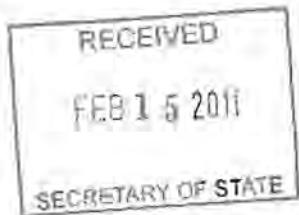

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulatory action. Comments should be submitted to Steve Haslouer, KDHE, Bureau of Environmental Field Services, 1000 SW Jackson, Suite 430, Topeka 66612-1367; by fax to (785) 296-6247; or by e-mail to shasloue@kdheks.gov. All interested parties will be given a reasonable opportunity to present their views orally on the proposed regulatory action during the hearing, as well as to submit their written comments at that time. In order to give all parties an opportunity to present their views, it may be necessary to require each participant to limit any oral presentation to five minutes.

Copies of the proposed regulation and document adopted by reference, economic impact and environmental benefits statements and notice of hearing may be obtained on the Bureau of Environmental Field Services Web site at <http://www.kdheks.gov/befs> or by contacting Melissa Hammond at the address above, (785) 296-6603 or fax (785) 296-6247.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and the economic impact and environmental benefits statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Melissa Hammond.

Robert Moser, MD

Acting Secretary of Health and Environment

Proposed

28-16-28g. Surface water register. The classification and use designations of surface waters of the state shall be those identified in the department's "Kansas surface water register," dated February 12, 2009 December 15, 2010, which is hereby adopted by reference. (Authorized by K.S.A. 2009 2010 Supp. 82a-2010; implementing K.S.A. 2009 2010 Supp. 82a-2001, 82a-2002, 82a-2003, 82a-2004, and 82a-2005; effective Jan. 28, 2005; amended May 20, 2005; amended Sept. 15, 2006; amended May 25, 2007; amended June 6, 2008; amended Feb. 26, 2010; amended P-_____.)

REGULATORY IMPACT STATEMENT

Pursuant to K.S.A. 77-416

PROPOSED AMENDMENTS TO K.A.R. 28-16-28g

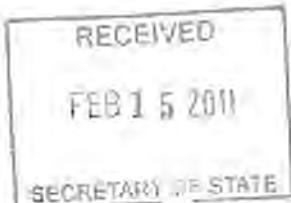

December 15, 2010

Executive Summary of Proposed Regulation

The Kansas Department of Health and Environment is responsible for designating uses of surface waters as part of establishing surface water quality standards. Designated uses of surface waters are listed in the Kansas Surface Water Register which is adopted by reference in K.A.R. 28-16-28g. A use attainability analysis (UAA) is a procedure to evaluate water bodies and assign designated uses.

On October 14, 2002, the Department made available to the public a listing (taken from the 1999 Kansas Surface Water Register) of classified streams for which all designated uses were completed (excluding recreational use), all designated uses were not completed and all designated uses were not attainable. This listing is in compliance with K.S.A. 82a-2004(b). For such classified stream segments for which designated use attainability analyses for use other than recreational use had not been completed, the Department completed a designated use attainability analyses for use other than recreational use by December 31, 2007. In the period of January 1, 2007, through July 30, 2008, 971 stream segments were evaluated by a designated use attainability analysis (UAA) to determine the designated uses of aquatic life support, food procurement, domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge. Also, KDHE has conducted 36 primary/secondary contact recreation UAAs on stream segments where an assessment had not been either previously conducted or an assessment had not been properly assigned. KDHE has conducted irrigation, livestock watering, domestic water supply, industrial water supply and groundwater UAAs on 36 classified lakes where a UAA had not been previously conducted. After conducting UAAs and assigning the appropriate designated uses, KDHE proposes modifications to K.A.R.28-16-28g and the Kansas Surface Water Register.

Environmental Benefit Statement**1) Need for proposed amendments and environmental benefit likely to accrue.****a. Need**

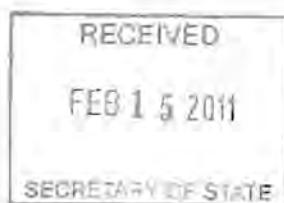

The proposed amendments are in response to the requirements of K.S.A. 82a-2001, K.S.A. 82a-2004 and changes to the Kansas Surface Water Register due to UAA findings. K.S.A. 82a-2001 established five requirements for a classified stream. One of the requirements of classification is to determine if streams less than one cfs are capable of supporting aquatic life and are an important aquatic life refuge. K.S.A. 82a-2004 requires that a UAA be conducted on all classified stream segments of the state where a designated UAA has not been completed prior to December 31, 2007. For classified surface waters other than classified stream segments (lakes, ponds and wetlands), KDHE conducted UAAs for designated uses other than recreation for which a UAA had not previously been completed. In response to K.S.A. 82a-2001, K.S.A. 82a-2004 and changes to the Kansas Surface Water Register due to UAA findings, KDHE proposes modifications to K.A.R. 28-16-28g and adopts by reference a new Kansas Surface Water Register dated December 15, 2010, to adopt recreational uses and other designated uses determined by completed UAAs.

b. Environmental Benefit

Through the process of conducting UAAs, KDHE will identify and classify those stream segments and lakes for which a UAA had not previously been completed. It will allow KDHE the opportunity to assign the appropriate designated uses of these surface waters to be protected and achieved.

2) When applicable, a summary of the research or data indicating the level of risk to the public health or the environment being removed or controlled by the proposed regulations or amendments.

Classified stream segments are those stream segments defined in K.S.A. 82a-2001(a). K.S.A. 82a-2001(a) establishes five requirements for a classified stream. One of the requirements of classification is to conduct a scientific study to determine if a stream flow of less than one cfs is capable of supporting aquatic life. K.S.A. 82a-2004(b) requires KDHE to publish a listing of classified stream segments that have had UAAs conducted for which all designated uses were completed (excluding recreational use), all designated uses were not completed and all designated uses were not attainable. For such classified stream segments for which designated use attainability analyses for use other than recreational use had not been completed, the Department has completed a designated use attainability analysis for use other than recreational use. The proposed 2010 Kansas Surface Water Register identifies changes on designated uses for 709 stream segments and 36 lakes for which a UAA had not previously been completed. Because the UAA proves the attainability of the designated uses for these stream segments and lakes, the state water quality standards must assure protection of that use.

- 3) If specific contaminants are to be controlled by the proposed regulation or amendment, a description indicating the level at which the contaminants are considered harmful according to current available research.**

These proposed regulatory changes deal only with the designated uses assigned to stream segments and lakes. The changes do not address the bacterial indicator criteria for the various subclasses/subcategories of recreational use or water quality criteria for the other designated uses of surface waters.

Economic Impact Statement

- 1) Are the proposed regulations or amendments mandated by federal law as a requirement for participating in or implementing a federally subsidized or assisted program?**

The Federal Water Pollution Control Act (Clean Water Act) requires states to establish water quality standards. Federal water quality standards regulation 40 CFR 131.10 requires each state to take into account the use and value of water for public water supplies, protection and propagation of fish, shellfish and wildlife, recreation in and on the water, agriculture, industrial and other purposes including navigation.

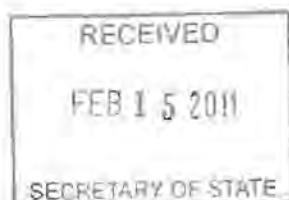

- 2) Do the proposed regulations or amendments exceed the requirements of applicable federal law?**

No. The proposed amendments are based on requirements set forth in federal regulations.

- 3) Description of costs to agencies, to the general public and to persons who are affected by, or are subject to, the regulations:**

- (a) Capital and annual costs of compliance with the proposed regulations or amendments and the persons who will bear those costs.**

There are no additional costs of compliance resulting from changes in designated use designations. The only regulatory authority KDHE has to control bacteria is from point sources. Most point sources are already required to disinfect (remove bacteria) and most existing domestic water supply diversions from surface waters are already required to apply appropriate treatment. These proposed changes identify the designated uses on 709 stream segments and 36 lakes as a result of UAA findings. Three stream segments are proposed for deletion from the Kansas Surface Water Register (removed from classification), 16 stream segments are proposed for secondary contact recreation and 20 stream segments are proposed for primary contact recreation. 703 stream segments added or changed designated use assignments for aquatic life support use, food procurement, domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge. Two lakes are proposed for deletion and 30 lakes are proposed for domestic water supply, industrial water supply, livestock watering, irrigation and groundwater recharge.

Proposed

- (b) Initial and annual costs of implementing and enforcing the proposed regulations or amendments, including the estimated amount of paperwork and the state agencies, other governmental agencies or other persons or entities who will bear the costs.**

Implementing the proposed regulations should not cause any significant annual cost increases. The Department anticipates any additional UAA work will be absorbed within the current budget and staff.

- (c) Costs which would likely accrue if the proposed regulations or amendments are not adopted, the persons who will bear the costs and those who will be affected by the failure to adopt the regulations.**

There will be no significant additional costs to maintain the program. Only legal costs may be incurred if the Kansas Surface Water Register is not completed.

- (d) A detailed statement of the data and methodology used in estimating the costs used in the statement.**

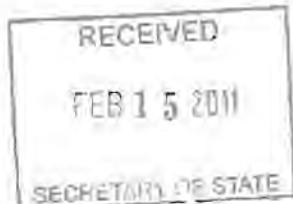

It is anticipated that the cost associated with the proposed amendments comes only from conducting the designated uses and recreational UAAs by KDHE. Funds to cover the cost to conduct designated use and recreational UAAs have been specifically appropriated from the State Water Plan and state general funds.

- (e) Description of any less costly or less intrusive methods that were considered by the agency and why such methods were rejected in favor of the proposed regulations.**

Pursuant to K.S.A. 82a-2001 and K.S.A. 82a-2004, no other options are available.

- (f) Consultation with League of Kansas Municipalities, Kansas Association of Counties, and Kansas Association of School Boards.**

The Department does not anticipate that the proposed regulation will have any significant fiscal impact on constituencies of these organizations. A copy of proposed regulation, regulatory impact statement and notice of hearing was sent to each organization when the notice of public hearing was published in the *Kansas Register*.

28-16-28g. Surface water register. The classification and use designations of surface waters of the state shall be those identified in the department's "Kansas surface water register," dated ~~February 12, 2009~~ December 15, 2010, which is hereby adopted by reference. (Authorized by K.S.A. ~~2009~~ 2010 Supp. 82a-2010; implementing K.S.A. ~~2009~~ 2010 Supp. 82a-2001, 82a-2002, 82a-2003, 82a-2004, and 82a-2005; effective Jan. 28, 2005; amended May 20, 2005; amended Sept. 15, 2006; amended May 25, 2007; amended June 6, 2008; amended Feb. 26, 2010; amended P-_____.)

SECTION ONE

DESIGNATED USES OF MAJOR CLASSIFIED STREAMS

Designations apply only to unimpounded reaches of the specified stream segments. Use designations assigned to classified streams not listed in this table are determined by the Department on case-by-case basis in accordance with K.A.R. 28-16-28d(d).

Abbreviations:

HUC	= hydrologic unit code
SEG	= stream segment
CLASS	= antidegradation category
GP	= general purpose waters
EX	= exceptional state waters
ON	= outstanding national resource waters
AL	= designated for aquatic life use
S	= special aquatic life use water
E	= expected aquatic life use water
R	= restricted aquatic life use water
CR	= designated for contact recreational use
A	= Primary contact recreation stream segment is a designated public swimming area
B	= Primary contact recreation stream segment is by law or written permission of the landowner open to and accessible by the public
C	= Primary contact recreation stream segment is not open to and accessible by the public under Kansas law
a	= Secondary contact recreation stream segment is by law or written permission of the landowner open to and accessible by the public
b	= Secondary contact recreation stream segment is not open to and accessible by the public under Kansas law
DS	= designated for domestic water supply use
PP	= designated for food procurement use
GR	= designated for ground water recharge
IW	= designated for industrial water supply use
IR	= designated for irrigation use
LW	= designated for livestock watering use
X	= referenced stream segment is assigned the indicated designated use
O	= referenced stream segment does not support the indicated designated use
blank	= capacity of the referenced stream segment to support the indicated designated use has not been determined by use attainability analysis
Br	= branch
Cr	= creek
Fk	= fork
M	= middle
R	= river

SECTION TWO

DESIGNATED USES OF MAJOR CLASSIFIED LAKES AND OTHER WATERS (EXCLUDING STREAMS) CONSTITUTING OUTSTANDING NATIONAL RESOURCE WATERS

Use designations for classified lakes not listed in this table are determined by the Department on a case-by-case basis in accordance with K.A.R. 28-16-28d(d). Classification and use designation applies to all waters contained within the particular Wildlife and Park, Wildlife Refuge, State Park, wetland, or Wildlife Area. Classification and use designation applies to all waters contained within the Nature Conservancy wildlife preserve (designated as Cheyenne Bottoms in this Register) and KDWP Cheyenne Bottoms Wildlife Area (Cheyenne Bottoms).

Abbreviations:

HUC	= hydrologic unit code
CLASS	= antidegradation category
GP	= general purpose waters
EX	= exceptional state waters
ON	= outstanding national resource waters
AL	= designated for aquatic life use
S	= special aquatic life use water
E	= expected aquatic life use water
R	= restricted aquatic life use water
CR	= designated for contact recreational use
A	= Primary contact recreation lakes that have a posted public swimming area
B	= Primary contact recreation lakes that are by law or written permission of the landowner open to and accessible by the public
C	= Primary contact recreation lakes that are not open to and accessible by the public under Kansas law
a	= Secondary contact recreation lakes that are by law or written permission of the landowner open to and accessible by the public
b	= Secondary contact recreation lakes that are not open to and accessible by the public under Kansas law
DS	= designated for domestic water supply use
FP	= designated for food procurement use
GR	= designated for ground water recharge
IW	= designated for industrial water supply use
IR	= designated for irrigation use
LW	= designated for livestock watering use
X	= referenced lake is assigned the indicated designated use
O	= referenced lake does not support the indicated designated use
blank	= capacity of the referenced lake to support the indicated designated use has not been determined by use attainability analysis.
KWP	= Kansas Wildlife and Parks
LK/L	= lake
NWR	= National Wildlife Refuge
RES	= reservoir
SFL	= State Fishing Lake
W	= wetland
W.A.	= Wildlife Area

Designated uses of major classified lakes and lakes constituting outstanding national resource waters (continued)

SECTION THREE

MISCELLANEOUS SURFACE WATERS CONSTITUTING OUTSTANDING NATIONAL RESOURCE WATERS

Surface waters identified below shall be classified as outstanding national resource waters:

- (1) Cimarron National Grasslands (Morton and Stevens counties); classification applies to all surface waters within national grasslands.

SECTION FOUR

MISCELLANEOUS SURFACE WATERS CONSTITUTING SPECIAL AQUATIC LIFE USE WATERS

Surface waters identified below shall be designated as special aquatic life use waters:

- (1) All oxbow lakes and wetlands within that portion of Allen County encompassed by a line that extends from latitude 37.7471, longitude 95.4336 west to latitude 37.7471, longitude 95.4600, then south to latitude 37.7400, longitude 95.4600, then east to latitude 37.7400, longitude 95.4433, then south to latitude 37.7329, longitude 95.4430, then east to latitude 37.7329, longitude 95.4338, then north to point of origin.
- (2) All wetlands within that portion of Allen County encompassed by a line that extends from latitude 37.9220, longitude 95.4090 west to latitude 37.9216, longitude 95.5190, then south to latitude 37.8199, longitude 95.5190, then east to latitude 37.8199, longitude 95.4102, then north to point of origin.
- (3) All wetlands within that portion of Anderson County encompassed by a line that extends from latitude 38.2130, longitude 95.2596 west to latitude 38.2130, longitude 95.4255, then south to latitude 38.1108, longitude 95.4260, then east to latitude 38.1103, longitude 95.2621, then north to point of origin.
- (4) All wetlands within that portion of Atchison County encompassed by a line that extends from latitude 39.5355, longitude 95.5153 west to latitude 39.5355, longitude 95.5528, then south to latitude 39.5210, longitude 95.5528, then east to latitude 39.5210, longitude 95.5153, then north to point of origin.
- (5) All cave waters and associated springs within that portion of Cherokee County encompassed by a line that extends from latitude 37.0745, longitude 94.6177 west to latitude 37.0745, longitude 94.7402, then south to latitude 36.9985, longitude 94.7402, then east to latitude 36.9985, longitude 94.6177, then north to point of origin.

- (6) All wetlands within those portions of Cherokee and Labette counties encompassed by a line that extends from latitude 37.3379, longitude 94.6177 west to latitude 37.3379, longitude 94.7055, then south to latitude 37.1778, longitude 94.7045, then west to latitude 37.1787, longitude 95.0862, then south to latitude 36.9994, longitude 95.0862, then east to latitude 36.9985, longitude 94.6177, then north to point or origin.
- (7) All wetlands within that portion of Douglas County encompassed by a line that extends from latitude 38.9279, longitude 95.2232 west to latitude 38.9279, longitude 95.2415, then south to latitude 38.9136, longitude 95.2415, then east to latitude 38.9136, longitude 95.2232, then north to point of origin.
- (8) All wetlands, oxbow lakes and classified streams within that portion of Linn County encompassed by a line that extends from latitude 38.3742, longitude 94.6130 west to latitude 38.3742, longitude 94.8440, then south to latitude 38.1382, longitude 94.8425, then east to latitude 38.1389, longitude 94.6130, then north to point of origin.
- (9) All wetlands within that portion of Woodson County encompassed by a line that extends from latitude 37.8219, longitude 95.8520 west to latitude 37.8219, longitude 95.8704, then south to latitude 37.8069, longitude 95.8707, then east to latitude 37.8069, longitude 95.8520, then south to latitude 37.7922, longitude 95.8520, then east to latitude 37.7922, longitude 95.8337, then north to latitude 37.8069, longitude 95.8337, then west to latitude 37.8069, longitude 95.8520, then north to point or origin.
- (10) Cheyenne Bottoms Preserve (Barton County); classification applies to all surface waters within the Nature Conservancy wildlife preserve.
- (11) Cimarron National Grasslands (Morton and Stevens counties); classification applies to all surface waters within national grasslands.
- (12) Konza Prairie Natural Area (Geary and Riley counties); classification applies to all surface waters within natural area.
- (13) McPherson Valley Wetlands (McPherson County); classification applies to all surface waters within state owned portions of wetlands.
