RE: Senate Bill No 278

In memory of Rhianna, this bill must be past in order to save another child's life. If you do not believe it is a major problem and that children and parents alike are not be held accountable, then walk away.

If you believe that every child has a right not be bullied, harassed, made to feel as if they are worthless, then take action. There are constant reports regarding the harmful effects bullying has had on children and the disciplinary actions stated in the bill are more than fair.

Once again, I urge you to stand up for the children as one more life lost to bullying is acceptable.

Sincerely,

Roberta Adams
