

**Senate Bill No. No. 311**  
**Supplemental Appropriations for FY 2012 and FY 2013**  
**As Recommended by the Governor**

Senate Bill No. 311 contains current year adjustments for FY 2012 for selected state agencies (and FY 2013 adjustments for certain biennially budgeted agencies), as recommended by the Governor. An overview of the Governor's recommended budget for FY 2012 is provided below. **Not all of the supplemental expenditure and receipt adjustments recommended by the Governor and amended by the Legislature to date are reflected in this bill.** For example, expenditure changes recommended to special revenue funds with "no limit" expenditure limitations would not require any adjustments in the bill. In addition, some recommendations may not require any action in an appropriations bill, but may impact the amount of funding available for carry forward to FY 2013.

**Governor's Recommended Changes to Estimated FY 2012 Expenditures**

Based on actions of the 2011 Legislature, it was estimated by the Research Department that FY 2012 expenditures from all funds would total \$13.913 billion. The *Governor's Budget Report* revises the all funds FY 2012 budget to \$14.744 billion, an increase of \$830.5 million above the earlier estimate. Major differences from the session-end estimates and the current Governor's recommendation include:

- An increase of \$188.5 million from all funding sources in the budget of the **Kansas Department of Transportation**, largely for adjustments to capital improvements projects.
- An increase of \$180.9 million from all funding sources in the budget of the **Kansas Board of Regents and the Regents institutions**, primarily reflecting additional special revenue fund expenditures.
- An increase of \$140.0 million from all funding sources for the **Department of Health and Environment**, based on revised human services caseload estimates.
- An all funds increase of \$115.9 million in the budget of the **Adjutant General**, reflecting disaster relief funding.
- An increase of \$71.7 million from all funding sources in the budget of the **Department of Social and Rehabilitation Services and the state hospitals**, primarily reflecting additional federal funds expenditures and human services caseload increases.

At the close of the 2011 Session, FY 2012 expenditures from the State General Fund were estimated to be \$6.054 billion, excluding \$12.9 million in State General Fund expenditures which were unspent in FY 2011 and carried forward to FY 2012. The *Governor's Budget Report* revises the FY 2012 State General Fund budget to \$6.129 billion, an increase of \$73.9 million, or 1.2 percent, above the approved amount. Major adjustments to the approved State General Fund amount include:

- State General Fund increases of \$31.6 million, in the **Department of Education**, based on revised school finance estimates.
- Increases of \$25.6 million in the budget of the **Department of Health and Environment (KDHE)**, based on revised human services caseload estimates.
- A total of \$12.9 million in **FY 2011 State General Fund expenditures** that were unspent in FY 2011 and carried forward, or "shifted" to FY 2012.
- Recommended FY 2012 **State General Fund revenue adjustments** total a net reduction of \$2.0 million to revenue and include: using \$1.7 million from the **Expanded Lottery Act Revenues Fund**, which would have been deposited to the State General Fund, to renovate existing buildings at the Labette Correctional Conservation Camps to house geriatric inmates; an adjustment to the **Securities Commissioner's** budget, resulting in an additional \$69,478 in State General Fund revenue; and the recognition of a transfer of \$350,000 for a **tort claim** which was approved at the December meeting of the State Finance Council.

The status of the State General Fund, based on the recommendations of the Governor, is reflected in the following profile.
