

Kansas Open Records Act Exceptions

HB 2030 extends for five years exceptions to the Kansas Open Records Act that are set to expire July 1, 2011. The bill also amends KSA 12-2819, concerning the Metropolitan Transit Authority Act, and KSA 12-5611, 12-5711, and 12-5811, concerning county riverfront authorities, to clarify that the only documents and records exempt from open records requests are those kept or prepared by each authority for contract negotiations or civil proceedings to which the individual authorities are a party.
