

SESSION OF 2011

**SUPPLEMENTAL NOTE ON HOUSE
SUBSTITUTE FOR SENATE BILL NO. 34**

As Recommended by House Committee on
Federal and State Affairs

Brief*

House Sub. for SB 34 would modify current law regarding prohibitions on late-term and partial birth abortions; require parental consent with certain exceptions for abortions involving minors; expand and establish new abortion reporting requirements; and add a civil cause of action in certain abortion cases. Other changes would alter the terminology associated with abortion law, require new rules and regulations regarding partial birth abortions, and grant access by law enforcement to certain abortion reports if violations of the law are suspected.

The term “fetus” in current law would be changed to “unborn child” and revised definitions of “viability” and “partial birth abortion” would be included. A new definition of “human being” also would be included.

The bill would enhance the reporting requirements regarding the medical diagnosis in general for all cases and, specifically, for those cases involving late-term abortions near or after viability and for those cases involving partial birth abortions. The criteria for who may obtain a partial birth abortion would be redefined by deleting the reference to mental function of a pregnant woman.

A civil cause of action would be created regarding late-term abortions, partial birth abortions, and parental consent.

*Supplemental notes are prepared by the Legislative Research Department and do not express legislative intent. The supplemental note and fiscal note for this bill may be accessed on the Internet at <http://www.kslegislature.org>

The Attorney General, district attorney, or county attorney would be authorized to prosecute criminal offenses. Disciplinary action by the Board of Healing Arts would continue to be an option regarding such violations.

Current law requiring parental notice would be deleted and a new requirement for parental consent would be added regarding minors. Procedures for court-waiver of consent would be established. The informed consent information currently required to be provided would be modified by requiring the additional statement that the abortion will terminate the life of a whole, separate, unique living human being.

Reporting of sexual abuse would be required; the Kansas Department of Health and Environment (KDHE) would be required to include additional information in its reporting; and law enforcement officials would be granted access to KDHE reports.

Background

SB 34, as passed by the Senate, would have allowed a person whose driving privileges have been revoked as a habitual violator to obtain a class C license for the operation of motorized bicycles.

The House Committee deleted the Senate provisions in SB 34 and inserted the provisions of HB 2035, as passed by the House.

Conferees who appeared in support of the bill (HB 2035) included the principal sponsor, Representative Lance Kinzer; the Executive Director of the Kansas Catholic Conference; a representative of Kansans for Life; and an individual.

Opponents included representatives of the Kansas National Organization for Women; Planned Parenthood of Kansas and Mid-Missouri; and Trust Women (written only).

The Board of Healing Arts indicated that passage of the bill could increase the number of complaints regarding practitioners not complying with the requirements of the bill, which, in turn, could increase the number of investigations and disciplinary cases that need to be performed. If there is an increase in the number of investigations and disciplinary cases, related operational expenses also would increase.

The Department of Health and Environment indicated that passage of the bill would increase expenditures by \$70,380 from all funding sources, including \$20,380 from the State General Fund and \$50,000 from agency special revenue funds.

The Office of the Attorney General estimated increased expenditures of \$220,000 from the State General Fund because the Attorney General would be authorized to prosecute any criminal offense related to the late-term abortion restrictions in the bill. This would include funding for the salaries of a lawyer, investigator, one part-time secretary, and expert witness fees.
