H.B 2054

Dear Member of Fed. State & Affairs Committee;

To begin with and making a long story short, as I read the 'graphic' discription of "nudity & semi-nudity" with disappointment and dismaze, not to mention how the '1st Amendment' is abused, I thought in today's world, have we lowered our standards so far that nothing is shameful or that people sepecially official's have forgotten how to blush or what to be ashamed of? (Rev. 3;18,18;15)

We have allowed too much freedom already for all that undermines the moral fiber of our community ,country and corrodes society. Let's remember the rippling affect this type of 'intertainment' (some term it as a business) has on society, need- less to say is why there are problems with family, home and yes even economy issues that H.S.Merrick seems to think are more important matters.

If people are gullible to defile their character in this manner like Bradley said 'let them go on-line' and wade in the filth that will never satisfy..Here again we see the ramifications and deceptive usage of alcoholic beverages as they go hand in hand. Let's think about the example we set for the younger generation !

Bottom line is PLEASE VOTE 'YES' ON H.B.2054!!

If a man, in due respect to your wife or daughter, a lady shouldn't have to think twice to know how to vote. If you vote NO, thanks for furthering the cause of Sodom & Gomorrah. (Gen.13;10) The choice is yours to live with .

Respectfully Yours,

Lois-Ann Beal Pres.W.C.T.U.
