and other distinguished members of the House Fed. and State Affairs Committee

Subject: Written Testimony in SUPPORT OF HB 2324--Prolife Heartbeat Protection

I'm an 82 year old grandmother of 5 adorable great-grandchildren under the age of 6--also a former elementary teacher. I'm a concerned Christian looking at the way many in today's society view unborn children as easily disposable objects. PLEASE pass this bill. Unborn children deserve a chance to become all that God calls them to be. Many of our future scientists, doctors, and future leaders could be among those aborted so easily.

I humbly request that you quickly move HB 2324 to the floor of the House, favorable for passage.

Respectfully,
Mary Ann Fowles
