Regarding: The Hearing on HB 2074

My written testimony: I would strongly recommend that this bill be amended to add to Section 1 the following, *All existing solid waste_management plans that are in violation of this Act will be null and void_upon the passage of this Act.*

The reason for this is that as it is written it has no teeth, no consequences. It implies "going forward" which changes nothing regarding any existing plans that violate this statute. Thank you.
