

As Organizer/treasurer of the Wellington Humane Society, Inc. I support the proposed PACK amendments , most especially those suggested in dealing with foster homing. The fees and requirements of the past were detrimental to our humane efforts. Having no facility of our own, we often depended on fostering efforts. Extreme licensing fees, per each individual, discouraged many willing fostering volunteers and left us with financial demands that would stress our meager budget. I support the PACK efforts in whole as presented. Linda Stewart Wellington, Humane Society P.O. Box 494 Wellington, Kansas 67152
