Senators of the Agricultural Committee
RE: SB 157 Ks. Pet Animal Act

My wife Yvette & I have been Licensed
Animal Breeders in Olpe KS For 15 years.
We have approximately 130 dogs in our
Facility. I sit on the Board of KPP
for the last year.

I can appreciate your need to increase
the Fees, but feel 25 to 30 percent is
a sufficient increase, but I need to
admonantly testify against the caps
the Ag. Dept. suggests.

I feel that the \$100 late fee is also
sufficient, \$100 per month is not needed
as if they are late they cannot sell
any of their animals until their license
is renewed. The \$100 late fee can be paid
at that time! While we are on the
subject of fees, remember this is a premises
license one premise one fee 47-1721 F
needs to be reinstated into the law

Also I believe that the appointments
to the Advisory Board should be made
by the Governor. While on the subject
of the Advisory Board I'm okay with
the addition of the new category, but I
don't approve of the other changes. The
members on this Advisory Board should
belong to an organization so they can
represent more than their personal views

The Private citizen should remain
A private citizen with no link so
they will bring different view points
to the Board. The research Facility Rep.
needs to be an owner or Employee of
A research facility licensed by the State
of Ks. This Law is not Federal or
International, but is A KANSAS LAW!

Sincerely,

Larry Bolz
