

February 18, 2013

The Honorable Richard Proehl, Chairperson
House Committee on Transportation
Statehouse, Room 581-W
Topeka, Kansas 66612

Dear Representative Proehl:

SUBJECT: Fiscal Note for HB 2318 by House Committee on Transportation

In accordance with KSA 75-3715a, the following fiscal note concerning HB 2318 is respectfully submitted to your committee.

HB 2318 would clarify that any headlamp may be wired with a headlamp modulation system provided that the headlamp modulation system complies with federal standards. Also, the bill would clarify that a motorcycle may be equipped with lamps on the sides, visible from the side of the motorcycle, but not from the front or the rear, which lamps, together with mountings or receptacles would be set into depressions or recesses in the body or wheel of the motorcycle and would not protrude beyond or outside the body or wheel of the motorcycle. The light source may emit light of any color.

There would be no fiscal effect to the state budget if HB 2318 were enacted.

Sincerely,

Steven J. Anderson, CPA, MBA
Director of the Budget
