

February 20, 2013

The Honorable Ralph Ostmeyer, Chairperson
Senate Committee on Federal and State Affairs
Statehouse, Room 136-E
Topeka, Kansas 66612

Dear Senator Ostmeyer:

SUBJECT: Fiscal Note for SB 112 by Senate Committee on Federal and State Affairs

In accordance with KSA 75-3715a, the following fiscal note concerning SB 112 is respectfully submitted to your committee.

SB 112 would amend the Kansas Liquor Control Act to allow homemade fermented beverages to be transported and consumed for exhibition, demonstration, class, judging, tasting, sampling, contest, or competition. The bill would allow clubs and drinking establishments to hold these events as long as the homemade beverages are not sold and the licensee does not acquire any ownership interest in them. The licensee would be authorized to charge an admission fee for the event, but not for the consumption of the beverages. Homemade fermented beverages are defined in the bill as limited to beer or wine produced at a place of residence or other location only for personal consumption or use at the events named above, but not for a commercial purpose.

The bill would institute a number of other requirements regarding homemade fermented beverages, as follows:

1. The possession, production, transportation, or storage of homemade fermented beverages must be by a person at least 21 years of age;
2. Production could not exceed 100 gallons per person per calendar year, or 200 gallons if the household has two or more persons 21 years old or older;
3. The beverages could not be sold or offered for sale; and
4. A person who produces, possesses, transports or stores homemade fermented beverages could not be deemed a manufacturer, microbrewery, microdistillery, farm winery, wholesaler, distributor, supplier or retailer.

The bill would also exempt homemade beverages from the liquor gallonage tax.

The Honorable Ralph Ostmeyer, Chairperson
