

Closing down new directions is a huge mistake! A lot of elder people and parents take advantage of this program. It really helps people, especially when they are needing to work at home online because of having kids. I have 3 children austen this has helped me achieve many goals and get back on the right track! I can say I was blessed to have the option to go to new directions. Don't take away something so amazing to so many people!
Sincerely,

Kristal Schmidt
