Re: HB 2200, expansion of alcohol sales to grocery and convenience stores

February 12, 2015

Dear Committee -

I am a single Mom supporting my family as a manager of First Street Liquor. If Dillon's and Walmart take over our business, I am afraid I will have a hard time finding a job as good as the one I have.

I don't believe Dillon's and Walmart will hire more people, I think they will make the distributors do the stocking as they do now. Also I think it will hurt our towns as the profits will be going out of state rather than being spent locally.

I am very concerned about this, please help keep us in business.

Julia Reichert (Manager)

First Street Liquor
