

The Honorable Ron Highland
Chair of the Education Committee

Dear Sir:

I am writing in support of HB2292 - The Local Control of the Kansas Education Act.

I am strongly opposed to Common Core. I want my local community school board to be administering the education of our children and grand-children. Each child is uniquely different and deserve the individual attention of a competent teacher. We have wonderful teachers and I believe Common Core will serve to degrade the quality and morale of our teachers involved in our local education.

I stand in support of HB2292. *Please stand with me too.*
