

Dear Members of the KS House Education committee:

Please pass HB 2139 to repeal in-state tuition for illegal aliens. We must return to the rule of law not self-interested people. We must quit enticing parents and families to come illegally into Kansas to receive benefits from our oppressed taxpayers. It is also fundamentally immoral to entice people to break the law and then disallow Americans from other states from getting in-state tuition. In fact, those living in bordering states are footing the bill for this by paying higher tuition. This is downright dastardly.

I propose giving all illegal aliens a one-way ticket to sunny San Diego where they can suck up a liberal state's money and have a warm environment. We know that a half million dollars a day is taken out of Kansas taxpayers' funds to support illegal aliens. This is offensive. You all are supposed to be the watchmen on the wall to protect us and our resources. Stand up and put a stop to this now.
