HB2262 — Providing a compliance deadline and penalties for non-compliance with the student data privacy act.

Testimony in Support of this bill

Mr. Chairman and Committee Members,

I appreciate the opportunity to provide testimony in support of this legislation. This is procedure and policy we must focus our attention on due to the very nature of technology innovations and the constant desire of others to seek information on our families and in particular our children.

Last week on Thursday in the informational hearing it was all but appalling to hear the current status of our local school, two of those being some of the largest school districts in the state. When we have school districts that have not tested or ran audits of their system (THIS SCHOOL YEAR) this cause me great concern.

I think this bill is headed in the right direction but there is clearly more to accomplish in this area of education to protect our citizens interest.
