Currently room 221-E is being used as the "Capitol Meditation Room". HB 2075 officially names room 221-E the Capitol Meditation Room, making its name consistent with its use.

The meditation room is part of the governor's allotted space that he has given to the people for prayer and meditation. It is important to know that the room and its use does not single out any group or religion for preferential use, but is open to all.

Thank you for your attention in this matter.

Representative Steve Brunk
