To: Kansas House of Representatives Federal and State Affairs Committee
From: Bill Fox, P.S., Kansas Society of Land Surveyors
RE: SB 24

Good morning Mr. Chair and Members of the Committee. I am Bill Fox, Professional Surveyor for the State of Kansas. I am here today representing the Kansas Society of Land Surveyors.

The revisions this Committee is being asked to support are to clarify the comprehensive update to the Kansas State Board of Technical Professions enabling statutes that were passed last year. Last years update was long overdue and the changes being proposing today are of a "clean-up" nature.

The Kansas Society of Land Surveyors supports the provisions of Senate Bill 24.

Thank you for your attention to and consideration of this matter.
