

House Bill 2319 – Support

House Health and Human Services Committee

Jeanette Gaider, Director

March 18, 2015

Chairman Hawkins and committee members – Thank you for serving our Kansas people.

Please vote to help our people of our state that have income less than 100% FPL. Here at the Agape Health Clinic, I would say that 99% of our patients fall into that income level. It is very important that the State of Kansas expand KanCare (Medicaid) to take care of these people. Our clinic can only diagnosis the health problems and is unable to help those with serious illness. Currently, we have two patients that need to go on to specialists, and we are unable to help them with their costs. One with a heart problem that other needs breast biopsy. There are many more who need help.

PLEASE VOTE TO TAKE CARE OF OUR PEOPLE OF KANSAS.

Jeanette Gaider, Director
Agape Health Clinic
