

Recommendations: The Subcommittee on Waiver Integration

The Subcommittee recommends the House Committee on Health and Human Services consider a bill that would require any state agency to obtain legislative approval prior to integrating, consolidating, or structurally altering the waiver services under the Kansas program of medical assistance and would prohibit such action prior to January 2018.

The Subcommittee also recommends KDHE, as the state Medicaid agency, provide a written report on the status of waiver implementation planning to the House Committee on Health and Human Services, the Senate Committee on Public Health and Welfare, the Speaker of the House, and the President of the Senate in January 2017 and March 2017.
