

To Committee Member's

I would like you to move on House Bill HB 2003 on annexation non-adjointing land in a small county under 25,000 people. When a town annex in land outside of the city limits that is owned by the town the town council can control the area without county elected people say. Then the town can put on the land anything they want(like a Landfill). The Bill HB 2003 need to be passed out of committee and moved to the House for a vote. This also will let the local people have a say for annexation, through their government body, not a bigger town who wants to push the ways of the council. If the annexation is in a different school district it will take tax money away from that school district that the annexation is in and go to the one the town school district is in. That means the school loses out the tax money from that land and what goes on it. So I ask the committee to move HB2003 out of the committee and to a vote in front the House. Let the people of the county have the say not some town council lto tell what the county can do out of their city limits.
