

Testimony before the
House Committee on Local Government
In support of HB 2238
By Kansas State Representative Ed Trimmer

Mr. Chairman, members of the committee, I appreciate the opportunity to testify in favor of HB 2238. The bill is asking that Cowley County be designated the “Stone Bridge Capitol of Kansas.” The purpose of this designation is to promote tourism within the county. The idea has been supported by the Cowley County Commission and would help promote the concept of a historic stone bridge tour. Thank your for your indulgence.
