Re: SB 247, as Amended
Testimony in Support with suggested amendment

Thank you for the opportunity to present testimony in support of SB247 as amended. I apologize for not having the written version of this to you in advance.

I have been a C.P.A. in the State of Kansas since 1967. I have worked on audits of Colleges, Cities, Counties, School Districts, Fire Districts, Rural Water Districts and Townships. I presently advise six Shawnee County Townships and one Fire District on their compliance with the Kansas Cash Basis Law and the Budget Law.

I support SB247 but wish it would be amended to replace each reference to the number "\$500,000" with "\$1,000,000".

One of the townships I work with would exceed the \$1,000,000 number. It has in the past been audited and would continue to be required to have such audit.

I respectfully request you consider my suggestion and pass it from committee with my proposed change.

Thank you for your consideration
