

Division of Student Support Services

This letter is in support of Operation School Bell and the mission of their work to help our children, the students of Wichita Public Schools. Organizations such as Operation School Bell need to be able to maximize the use of their limited funds to provide as much clothing as possible for the students with the greatest economic needs in Wichita. The school social workers rely on the caring and generous women that run Operation School Bell to meet basic clothing needs such as coats, hats, pants and socks. Through their efforts and hard work they help clothe thousands of school children every year operating solely from donations and volunteer workers. They need every penny of every donated dollar to go toward purchasing clothes for our students. These needs are ever increasing as other resources continue to dwindle statewide. The valuable service that Operation School Bell provides for our students removes a barrier that helps improve school attendance.

Operation School Bell is part of an organization dedicated to helping others; please support the good work that they do every year to make our students' lives better.
