Mr. Chairman,

Please consider this letter of support for HB 2590 in allowing private individuals the ability to donate some of their tax refunds or any other additional amount to a public school of their choosing. As you know, many schools do fundraising and receive private donations for a myriad of needs and interests supporting students. It would be very beneficial to give patrons the opportunity in giving to schools through the taxing procedure each year.

This bill provides each individual taxpayer the choice of local assistance. Again, I support anything that offers flexibility and individual decision-making options that support students in Kansas schools.

Thank you for your attention to this letter. I apologize for not being able to be there in person. If you have any questions, please do not hesitate to contact me.
