Re: Testimony on House Bill 2090
Registration of City, County, Township, School District, Community or Technical
College Vehicles

Mr. Chairman and members of the committee, thank you for the opportunity to testify on House Bill 2090.

This bill proposes deletion of 8-1,134(c) which requires any City, County, Township, School District, Community or Technical College registering vehicles under 8-1, 134 to file an annual report with the Division of Vehicles identifying each vehicle registered under this section. With implementation of the MVS system in 2012, this report is no longer needed and therefore, we propose deleting the requirement.

Thank you, I will stand for questions.
