Hi Jenny,

I hope this letter is sufficient for your project for the Kansas license plates for Alzheimer's support. Let us know if you need anything further. Love you,

Joyce & Bob

Bob and Joyce Whitehead support the bill for Alzheimer's license plates in Kansas.

Alzheimer's is a disease that is terribly devastating for families. It places deep heartache, physical and financial burdens on family members. Joyce's aunt Irma, was a victim of Alzheimer's. Many of our friends have had parents who have been afflicted with Alzheimer's and have died because of this dreaded disease. Most recently, a very dear family friend passed away as a result of Alzheimer's. Bill Freeman was an influential educator and coach in the state of Kansas. After retirement, he was a solid supporting citizen of his home town of LeRoy and Coffey County.

There have been some advances made with Alzheimer's research, however, we feel that the Alzheimer's license plate would be another way to help keep awareness of and initiate funding to find a cure for this horrible debilitating neurological disease.
