

JCSBC TESTIMONY
Department of Administration
Chanute, Kansas
October 20, 2015

Good Morning.....At the request of the committee, I have gathered representatives from the agencies currently leasing space from the Department of Children and Families (DCF) and that are searching for suitable leased space in Chanute, Kansas.

Those agencies are the Kansas Corporation Commission (KCC), the Kansas Department of Aging & Disability Services (KDADS), and the Kansas Department of Wildlife, Parks, and Tourism (KDWPT). Representatives from DCF are also present.

To recap, per Senate Bill 112, the Department of Children and Families was granted permission during FY16 to sell the building and land which currently houses these agencies to Neosho Memorial Regional Medical Center.

Representatives from the Department of Administration met with Judicial appointed appraisers on September 22, 2015, and due to the complexity and large scope of work, expect appraisals within the next six weeks.

I will now ask that the representatives provide their testimonies based on the questions the committee raised in previous meetings.

Thank You
