Subject: proponent for sb3 written testimony only

My name is Linda Coster. I am writing to you because I would like the support for unemployment. I need it to pay bills during the summer. I have to feed my family on something. It is hard to make it through 2 months with no income. Please consider passing this bill. It would do a great deal to many people that I work with driving a school bus. we have no reasonable assurance that we will be called back every year. if you get a ticket in the summer for any reason they won't call you back. It is hard to find another job because they see you were a bus driver and don't want to hire you because they think you will probably go back. thank you for listening!!!
