TESTIMONY

SENATE BILL 338

SENATE COMMERCE COMMITTEE

February 2, 2016

Thank you Chairman Lynn and members of the committee for allowing me to testify on this important matter. Senate Bill 338, the new improved version, I think is the final compromise to push this legislation forward. I feel the changes have improved the bill and should put everyone at ease. I'm not going to go into the details now because you have heard from me in the past, but bottom line, I am endorsing SB 338 for passage. I am hopeful the bill can navigate through the rest of the legislative process and eventually receive the signature of the Governor. I want to thank you all for the work you have put in on this bill.
