### Members of Fed and State

On behalf of the City of Wichita and Sedgwick County this is an important piece of legislation for easy access to our public buildings. As a supporter of the 2<sup>nd</sup> Amendment, I understand the need for the security in emotionally charged places like court rooms, however, we should allow municipalities grant access for people to enter these government buildings with a pass. The pass is a way to make the buildings and government more user-friendly, and give them the ability to offer passes to use for an easy entrance.
