Testimony on SB230

2/23/2015

Proponent

SB230 is another attempt to reduce the number of multiple DUI's that Kansas experiences. I routinely get correspondence from constituents complaining about repeat offenders. I personally know of a repeat offender who is required to have an ignition interlock. This individual simply borrows vehicles from others and continues to drive under the influence. SB230 is meant to deter friends and family from loaning vehicles to individuals required to use an interlock. The dollar figures used may or may not be the appropriate amounts, but I trust the committee process to thoroughly deliberate and decide what the correct amounts should be in order to deter and/or hold accountable those who would enable drunk driving.

I ask your thoughtful consideration and support for SB230.

A handwritten signature in black ink that reads "Mitch Holmes". The signature is written in a cursive, flowing style.
