RE: H.B. 2289 – Administrative Driver's License Hearings

Dear Chairman Senator Jeff King and Members:

I believe that H.B. 2289 should be considered and adopted as it serves in the interest of justice.

As it currently stands there are many issues of fairness with regard to how administrative license hearings are conducted in Kansas: lack of access to police reports, inability to challenge the unlawfulness of a police stop, and more. H.B. 2289 is a step in the right direction to help address some of these issues.

Please look at the bill and adopt it. Thank you for your time and attention on this important matter.

Sincerely,
